Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art shows caster assemblies comprising casters, support shafts, locking bars, a first position where a locking bar engages a support bar, and a second position where the locking bar is clear of the support bar (Ross Jr.). Lawrence shows a similar assembly for use on a bed. However, the prior art fails to show a caster assembly with all of the above claimed features, further showing a locking bar that is configured to engage a pair of the support bars. With respect to claim 31, the prior art fails to show a caster assembly in combination with a bed having a support deck, base frame, and intermediate frame arranged as claimed.
